

## FRENCH CABINET MAY FALL.

Has a Bad Week in Prospect with the Chamber of Deputies.

Duke of Marlborough's Funeral—General Foreign News.

(BY ASSOCIATED PRESS.) PARIS, Nov. 14.—The present week is likely to be a momentous one for the French Cabinet. There is a growing opinion that the Ministry is only awaiting a chance to die.

The Chamber of Deputies has already abolished the duties on certain drinkables against the advice of the Ministers, thus diminishing the revenue by 88,000,000 francs and upsetting the Finance Minister's budget schemes.

On Wednesday the Government will press its bill asking for power to suppress violent Anarchist papers. It is believed that the Chamber will reject the bill as a mode of censuring the Prime Minister's weakness in dealing with Anarchists.

On Thursday the Panama Canal question will be debated, and this is likely to bring on a crisis.

Should the Ministry be overthrown it is likely that M. Ribot, the present Minister of Foreign Affairs, and M. de Freycinet, the present Minister of War, will be retained in the remodelled cabinet.

## MARLBOROUGH LAID AT REST.

2,500 People, Nobles and Tenantry, View the Duke's Remains.

(BY ASSOCIATED PRESS.) LONDON, Nov. 14.—The funeral of the Duke of Marlborough took place today at Blenheim Palace. Among those present were Lord Randolph Churchill, the Duke's brother; the Marquis of Londonderry, Lord Wimborne, Viscount Curzon, the Duke's brother-in-law; Lord de Ramsey, the Duke of Abercorn and other members of the nobility.

There were also present a large number of the tenants on the Duke's estate. The floral offerings were many and beautiful.

The young Duke attained his majority yesterday. Upon the expiration of the year of mourning imposed upon him by usage he will take his seat in the House of Lords, and fetes will be given to the tenantry in celebration of his coming into the dukedom.

The Duchess of Marlborough will receive \$1,000,000 insurance on the Duke's life. He had taken out policies in this large amount as a recognition of the immense sums the Duchess had expended in repairing and beautifying Blenheim Palace.

The body lay in state yesterday and was seen by 2,500 visitors.

## FIERCE LOVE LEADS TO MURDER.

Disappointed Suitor Shoots a Girl, Her Lover and Himself.

(BY ASSOCIATED PRESS.) LONDON, Nov. 14.—In the village of Peterborough, in Devonshire, a young man named William Williams fell in love with Emily Dodge, the daughter of a farmer. He was not accepted, another young man, named William Rowe, having found favor with the girl.

Yesterday, after service in the parish church, Williams followed Miss Dodge and Rowe.

The couple had proceeded but a short distance when Williams overtook them, and without a word fired two shots at Miss Dodge, who fell dead in the road.

The moment she dropped Williams fired two shots at Rowe, both of which took effect, and then he fired a bullet into his own brain.

Rowe died this morning. The condition of Williams is critical, and there is little if any chance of his recovery.

## THE DEACON CASE.

Mrs. Deacon May Be Fined for Every Day She Keeps Her Daughter.

(BY ASSOCIATED PRESS.) PARIS, Nov. 14.—It is expected that the court to which Mrs. Deacon has appealed from the decision of the Tribunal of the Seine will confirm the action of the lower court.

It is likely that the case will be heard Wednesday. Mr. Deacon's lawyer will ask the court to impose a fine of 4,000 francs a day upon Mrs. Deacon until she produces the daughter whom she abducted from the court.

Boom in American Railway Securities Expected Owing to the Fair.

(BY ASSOCIATED PRESS.) LONDON, Nov. 14.—The *Financial Times* thinks that the long-expected boom in American railway securities may come at any hour. There is nothing extravagant in the estimate, it says, that \$250,000,000 of foreign money will be left in America as the harvest of the Exhibition. Americans will be literally burdened with money seeking investment.

## Six Hundred Bamboo Houses in Tokio Burned.

(BY ASSOCIATED PRESS.) TOKYO, Nov. 14.—Fire in this city yesterday destroyed 600 bamboo houses. This is the first fire of any magnitude since the conflagration of April last, when 6,000 houses were burned and fifty natives lost their lives.

## PLANNED A GREAT DISASTER.

A Firebug's Effort to Destroy a Tenement House.

Accident Frustrated His Design, and the Police Are Seeking Him.

Capt. Schmittberger, of the East Eighty-eighth street station, is making a personal investigation today of a bold attempt at arson in the four-story brick tenement house at 7056 First avenue. The building is three doors from the corner of One Hundred and Sixth street, owned by Supreme Court Justice Ingraham, and is occupied by eleven families, in each of which are from three to five children.

At 1 o'clock last night James Matthews, a machinist, who lives with his wife and three children on the third floor, went down to the cellar to search for a missing baby carriage which had been taken without the knowledge of any of his family from his hallway.

He discovered that the door of his cellar had been forced open, and on entering was startled by discovering that a wooden trunk, several barrels and other inflammable material had been saturated with kerosene.

On further investigation he found that several other compartments of the cellar had been forced, and that the thin board partitions were coated with oil which had been recently applied.

The oil lay in pools all over the cellar floor, and the air was filled with the odor, even in the upper halls.

Believing that the person who had sprinkled the oil about had been frightened away by his advent into the cellar and that he was the culprit in the basement, Mr. Matthews called his wife to keep watch while he searched away for him.

Policeman John Smith was just outside. The man who had been seen by Matthews going into or leaving the cellar after eight o'clock, for any one who suspected as to the identity of the person who had not been disturbed, would undoubtedly have been applied the match and started a fire from which there could be no escape for the families living above.

The incendiary had laid his plans with diabolical cunning, calculating that he would break out from the cellar and top floor at the same time, as points of knowledge were found on the top landing, under the hatchway leading to the roof.

The tenants came almost panic-stricken when they heard the news and a scene of great excitement ensued.

Capt. Schmittberger, accompanied by an Evening World reporter, this morning discovered a clue which the Captain thinks will lead to the arrest of the incendiary.

The person under suspicion is a member of a gang of river thieves, two of whom were arrested by Ward detectives Friday and Saturday about six weeks ago, and turned over to the authorities at White Plains, L. I., charged with robbing a steamer anchored in the harbor.

A quantity of the stolen goods was found in the cellar under 7056 First avenue, and one of the gang was arrested while trying to take the goods away.

He had been heard to say that he would be revenged upon the tenants for "pitching on his pals."

Jacobs-Sire Case Goes Over. Trial of the suit brought by Mrs. Esther Jacobs to recover \$50,000 damages for alleged breach of promise of marriage from Henry R. ## HIS WAIST LINED WITH GOLD.

A Smuggler Caught with Sixty-eight Valuable Watches.

Almost Mistaken for a Dude Wearing Corsets.

Special Customs Inspectors Brown and Donohue made a very important capture of a smuggler on board the French line steamship La Bourgogne, which arrived yesterday from Havre.

The steamship got up to her dock about 6 o'clock last night.

The customs inspectors noticed one of the passengers who had a peculiar appearance. He was a well-built, broad-shouldered man with a light overcoat on. As he stood beside his baggage he buttoned up his overcoat and showed a waist that was evidently tightened up.

"There is one of those American dudes who wear corsets," Inspector Brown said to his partner, Tim Donohue.

Donohue's twenty-five years in the Customs service has given him an unerring scout for smugglers.

What appeared to be the impression of a button on the man's back, the passenger projected from his back. It was rather high up for a coat button, and Inspector Donohue singled out the man with the crowd about his waist and quietly put his finger on the supposed button. It felt rather large, and then appeared to be more than one.

The inspectors invited the man into the examination-room and asked him to take off his coat. He protested against the proceeding, but was overruled.

The man's name is Louis Marks. He is a resident of Seattle, Washington, and is thought to be a dealer in watches.

The watches are probably worth about \$12,000.

Marks was arraigned before Commissioner Smith today and held in \$2,000 for examination. He said he was a baker by trade and had paid about \$500 for the watches.

## NEW WHISTLES AND BILLIES.

Police Preparing to Abandon Their Night Sticks.

Rules for the Use of the New Whistles in Signalling.

There was lots of "whistling" at Police Headquarters today. It was done by 3,000 policemen who came to get their whistles and new billies, which were to be used in the place of the old night sticks.

The officers will be required to keep the whistle suspended from a button, as does a cardholder, so that it can be used at an instant's notice.

The billies will be kept concealed in a pocket made for the purpose in the policeman's trousers. It must only be taken out when an officer needs it to defend himself from attack.

As early as 7 o'clock this morning there was a crowd of policemen at Headquarters buying their whistles and billies, which were for sale in the club and supplies room. All day long there was a long line of policemen waiting.

Each policeman was charged 80 cents for his whistle and billie. Nearly every officer blew his whistle when he got it to see what it sounded like.

The result was that there was an incessant tooting all day.

The whistles are of nickel, about two inches long in the club and supplies room. They are like the whistles used by bicycle riders and sound about the same as a car-driver's whistle.

The new billies are of grenadine wood, 14 inches in length, 1 1/2 inches thick on one end and tapering down to 1 inch in thickness at the handle. The billies are numbered, the numbers corresponding with each officer's shield.

Many of the men expressed their disappointment of the new billie. Said one: "The class of people we have to deal with at night are more afraid of the old night stick than anything else." This was the sentiment of many others.

The new billie will regulate the use of the whistles.

Two blazes of the whistle will constitute a call. A whistle once, call out; call out a second time, call in; call out a third time, call out a fourth time, call out a fifth time, call out a sixth time, call out a seventh time, call out an eighth
